Ohio's Country Journal and the Ohio Ag Net are affiliated companies of Agri Communicators Inc. Agri Communicators is located in Columbus, Ohio and was founded in 1972 by the late Ed Johnson. Ed was known as Ohio's ambassador for agriculture. The company is now owned and operated by his son, Bart Johnson and his wife, Sheryl.

The Goal of Agri Communicators is to provide the Ohio farming community the information they need to help make their farm profitable, while providing an enjoyable and entertaining experience through its print, radio, and online offerings.

Ohio's Country Journal was first published in 1992. The Johnson family saw a need for a farm publication that focused solely on Ohio's agriculture and the people and events that make up Ohio's largest industry. The Ohio's Country Journal is published twice a month and is recognized as Ohio's premier farm publication.

- **With a circulation of more than 22,000 your advertisements will REACH across Ohio!** "Ohio's Country Journal" delivers statewide coverage with a single publication.
- **Your message...delivered when you want it!** "Ohio's Country Journal" is published 24 times per year.
- **Every issue of Ohio's County Journal includes:**  
News, Markets, Auctions, Crops, Farm Equipment, Classifieds, Rural Business Service, Livestock, Country Life, 4-H and FFA Highlights

## What neuroscience says about why print ads work

Reading on paper is slower and deeper; paper readers remember more.

## Advertising Opportunities

Advertising on the Ohio's Country Journal and the Ohio Ag Net online news site is sold by impressions. Once a decision is made as to the number of impressions that would be most helpful for each particular advertiser, our sales staff will help clients determine which advertising sizes and spaces are available and would be the most efficient use of advertising dollars.

Each day at 6 a.m., Ohio Ag Net recaps yesterday's closing markets, shares the overnight markets and highlights the top news stories of the day in a short, easy to read e-mail. It also includes a download of the morning broadcast so subscribers can listen to it on their phone or computer. Digital Dale keeps Ohio farmers and agri-businesses up to date on what's happening in Ohio agriculture.

**Good Morning Everyone...**  
33 degrees this morning and a roller coaster of weather this week as Ryan Martin explains below.

**Classes start today at OSU** and my son Ryan was getting ready for a return to the class room by pulling several of his traps which he can't properly take care of with his class schedule. Now he still has some coyote traps and muskrat traps out as they are close and he can check them before school. A local horse farm has a few racoon sets out as they have had issues in the barn and asked for some help.

What I found interesting was that **we encountered a snake** in the creek while picking up his traps. Not a big snake but any snake in January in Ohio will get your attention. I was not sure so I took a double look and forgot to take a picture. I have never seen that color pattern before either. I will pay more attention around the wood pile as long as the temps stay above freezing.

Ohio Ag Weather and Forecast - January 7

No change in our nearby and macro thoughts this morning, but we are going to be making some timing adjustments and the result will be a longer dry window in-between systems, even as our pattern shifts colder.

No change in the thought process today. We have a front that will cross the state later today, and it will bring rain. The moisture is a little slow in its arrival vs our forecast last week. In fact, rain really does not get going in many areas until late this afternoon and tonight. However, once rain starts, it comes in two waves, one late this afternoon through the overnight tonight, and then a second through the day tomorrow. We expect 36 hour rain totals (everything done by late tomorrow night or early Wednesday morning) to be up towards half an inch, although those half inch numbers will be limited to a very small percentage of the state. On top of that, we will see very gusty winds, averaging 15-30 mph all day long today out of the southwest...this will take temps up to above normal levels again, and ensure that we see all liquid precipitation here.

Life and lessons at Laurel Valley Creamery

Nick and Celeste Nolan operate a 25- to 30-cow dairy on their family's homestead in Gallia County. The family of eight has been working on the farm for 13 years and making cheese for nine of those years, which is a full-time job for both parents.

The property was owned by Nick's grandparents and was a dairy farm from 1947 until 1990. In 2001, Nick and Celeste moved their family back to the farm.

"Nick worked for General Mills in Wellston as a project engineer. And then in 2005, they outsourced his position and we had [already] bought the farm and [were] just kind of hobby farming," Celeste Nolan said.

At Laurel Valley Creamery, they typically make around 500 pounds of cheese per week.

Have a great day!

Dale, Matt and Joel
